Infrastructure (Protocol Test Kit)				

Utthunga's Simplified Certification Process

<p>FDT DTM Generation</p> <p>Vendor/manufacturer develops DTMs —independently or with Utthunga's assistance— using FDT DTM Common Components and Style Guide, and submits DTM Declaration files to Utthunga</p>	<p>Utthunga's FDT Test Center</p> <p>We perform FDT DTM Conformation and Style Guide testing against the specifications using dtmINSPECTOR tool</p> <p>We share DTM Declaration Form, Test Reports, and all defined deliverables with the FDT Certification Office</p>	<p>FDT Certification Office</p> <p>Based on the recommendation, FDT Group grants and publishes certified FDT DTMs</p>	<p>FDT Hub DTM Repository</p> <p>The certified FDT DTMs published on the FDT Hub for secure DTM/app management and storage</p>
--	---	--	---

- ### FDT DTM Compliance Test – The Checklist
- DTM state machine
 - Correct installation and de-installation
 - Multi-use environments
 - Mandatory and optional interfaces
 - Robustness of the DTM
 - Network scanning
 - Topology import/export
 - Audit trail

Beyond Certification

Interoperability Test

Different Host Systems <ul style="list-style-type: none"> • ABB • FDM 	Different Frame Applications <ul style="list-style-type: none"> • PACTware • FieldCare • FieldMate • fdtCONTAINER
